

Hey Guys!

Teachers: Use this story to read to students and ask them to color the matching pictures on the corresponding coloring sheet (which are numbered in the order they appear in the story).

*This activity corresponds with BEAM activity **Fantastic Bioplastic***

I'm Mr. Potato Head (1)! Did you know I'm made of plastic? Lot's of things are made of plastic! Water bottles (2), grocery bags, wrappers (3), plastic forks and cups (4)... What else is made from plastic?

Did you know that some people litter and that puts plastic all over the world where it doesn't belong? This is becoming very dangerous for fish and wildlife (5)!

So, what can you do to help? Don't litter! Recycle plastic when you can so we don't fill up as much space in landfills (6), and when possible, use biodegradable plastic (7). It breaks down faster than other plastics; that way, it doesn't last as long in the environment (8).
