Research Update:  
Switchgrass Establishment

Dr. Frank O'Connor is doing
CRAFT Researcher, Gary Selby at the switchgrass plots in Winchester, KY

In late Spring of 2010, CRAFT Program Director, Dr. Bruce Pratt and CRAFT researcher, Gary Selby, began a research project on Switchgrass Establishment. In March, the switchgrass was harvested.

Click here to learn what they have determined.

Student Spotlight: Luiz Reis

Meet Luiz, a 23 year-old foreign exchange student for Brazil, and learn how his experiences at CRAFT are preparing him for life back home. Click here to read more.

Jobs, Jobs Jobs: Careers in Renewable Energy

One the most dynamic and diverse career fields can be found in the renewable energy industry. Renewable energy careers are increasing in number daily around the
A revolution in science education at EKU began this Fall (2011) when Phase I of the New Science Building welcomed the Departments of Chemistry and Physics & Astronomy. This will provide further opportunities for the research being done at CRAFT.
